

REMARKS:

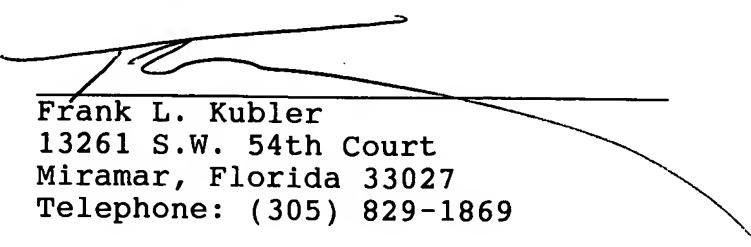

Favorable reconsideration of this application is respectfully requested.

Claims 7, 10, 11, 12 and 15-18 were rejected under 35 U.S.C. section 102(b) as being anticipated by Roy (U.S. 6,408,937). Claims 1-6, 8, 9, 13, 14, 19 and 20 were rejected under 35 U.S.C. section 103(a) as being unpatentable over Roy (U.S. 6,408,937) in view of Nelson, et al. (U.S. 6,529,377).

The primary or sole reference upon which all claim rejections are based, namely Roy (U.S. 6,408,937), was filed by the same sole inventor as the present application who also retains ownership in both this prior patent and the present application. In addition, the present application was filed less than one year after the June 25, 2002 issue date of Roy (U.S. 6,408,937). It is therefore respectfully requested that this reference be removed as a prior art reference in the present application. Since removal of Roy (U.S. 6,408,937) from the prior art also removes the basis for all claim rejections, it is respectfully urged that each of claims 1-20 be allowed. Such action is respectfully requested.

If there are any reservations about allowing these claims, a telephone interview is respectfully requested.

Respectfully submitted,

Frank L. Kubler
